Latest news and events from the Green Room School

Another half term has flown by and this time we are all looking forward to a lovely long summer holiday. We have had some exciting changes and events this term, we have said goodbye to our year 11's who all have a place at college lined up for September. We have inherited an allotment, which is a great challenge to knock into shape, get everyone active and grow some healthy vegetables. Also, following a very successful Ofsted visit, we are confident we

will get our registration number and be able to open as an Independent School in September, which is great news.

Mountain Mission

Clare, our Commercial Director, and her family have taken on a mountainous challenge and are climbing 4 peaks starting in Wales (Snowdon) on the 19th July, followed by England (Scafell Pike), Scotland (Ben Nevis) and Northern Ireland (Slieve Donard). They are doing this with the

organisation Tri-4-Life and the whole thing will be filmed for a documentary by renowned filmmakers The Ettinger Brothers! All proceeds will obviously go to The Green Room.

Film Friday

We decided to take Film Friday back in time to study the ancient Egyptians, Chinese and Aztecs. We split The Green Room students into three groups, one for each civilisation

ALLOTMENT

TRIP TO FARER THEATRE

DAY AT THE MUSEUM

and spent the morning making ancient artefacts, for example plates with ancient designs, stained scrolls, a Chinese dragon dance puppet and even a sarcophagus containing a real life mummy! We researched all civilisations and put up posters and facts about each one in different rooms.

In the afternoon, we decided to bring all our props to life, and set up a film set, turning The Green Room in to a museum.

We filmed a group of tourists visiting the museum being taken around by a tour guide, and the group later discovered the artefacts came to life, however, all ended well, with the exhibits joining the tourists for a party. This was just a fun way to do something creative with all of the pieces, posters and facts the students had worked so hard to put together.

Great Skilled for Life Options

Creative Media: which has involved looking at continuous shots on camera, exploring different examples of tracking shots and looking at making a continuous scene of our own as an advert for The Green Room.

Soil and Toil - based at Syd's allotment learning science in nature, about growing fruit and veg from seeds, caring for the plants, keeping everyone active and earning the fruits of their labour.

Military Inspired Learning and Fitness - this is a workout in the local park including military drills and exercises, encouraging team work and self belief.

Because you're worth it, looking after yourself, skincare, self confidence and self awareness, recognising your good points and those of your peers, with a bit of buddhist philosophy thrown in for good measure.

What does the Fox say - writing monologues, learning to be self aware through performance and creating drama.

Bray Lake Day Trip

To celebrate a great year, we had a fab day out at Bray Lake Watersports where all students had the opportunity to try sailing, paddle boarding and kayaking. It was great fun and as usual we were very proud of the exceptional behaviour from everyone.

Art Therapy

We'd like to thank Jenny Thorn, our volunteer art Therapist who has produced some great work with the students this term printing t shirts.

We hope everyone has a great summer, and look forward to seeing you all again in September.....
